

# Celebrating Differences

## Perspective

F / K / P

### Summary

Students will explore similarities and differences between their physical appearance, their families, and cultural backgrounds. They will learn about food and celebrations in different cultures and how they contribute to multicultural Australia. Students will ask questions to gain the perspective of people from different cultural backgrounds and go on a travel adventure to learn more about other cultures by visiting different countries.

### Essential Questions

How can we show kindness and fairness to everyone?

How are we the same and different to others?

How can we celebrate differences?

### Rationale

We are more likely to be fair and kind when we value and celebrate the similarities and differences between cultures and consider the perspectives of others.

### Future Action

Students will develop an appreciation of multicultural Australia, embracing and celebrating different cultures. They will show respect, fairness and kindness to everyone and consider ways to make people feel welcome.
