This policy applies to all school activities, including camps and excursions.

Definitions

Bullying

In 2018 the Education Council of the Council of Australian Governments endorsed the following definition of bullying for use by all Australian schools:

Bullying is an ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm. It can involve an individual or a group misusing their power, or perceived power, over one or more persons who feel unable to stop it from happening.

Bullying can happen in person or online, via various digital platforms and devices and it can be obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential to be repeated, over time (for example, through sharing of digital records)

Bullying of any form or for any reason can have immediate, medium and long-term effects on those involved, including bystanders. Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying.

Bullying has three main features:

- It involves a misuse of power in a relationship
- It is ongoing and repeated, and
- It involves behaviours that can cause harm.

Bullying can be:

1. direct physical bullying – e.g. hitting, tripping, and pushing or damaging property.
2. direct verbal bullying – e.g. name calling, insults, homophobic or racist remarks, verbal abuse.
3. indirect bullying – e.g. spreading rumours, playing nasty jokes to embarrass and humiliate, mimicking, encouraging others to socially exclude a person and/or damaging a person's social reputation or social acceptance.

Cyberbullying is direct or indirect bullying behaviours using digital technology. For example, via a mobile device, computers, chat rooms, email, social media, etc. It can be verbal, written and include images, video and/or audio.

Other distressing and inappropriate behaviours

Many distressing and inappropriate behaviours may not constitute bullying even though they are unpleasant. Students who are involved in or who witness any distressing and inappropriate behaviours should report their concerns to school staff and our school will follow the our SWPBS Matrix.

Mutual conflict involves an argument or disagreement between people with no imbalance of power. In incidents of mutual conflict, generally, both parties are upset and usually both want a resolution to the issue. Unresolved mutual conflict can develop into bullying if one of the parties targets the other repeatedly in retaliation.

Social rejection or dislike is not bullying unless it involves deliberate and repeated attempts to cause distress, exclude or create dislike by others.

Single-episode acts of nastiness or physical aggression are not the same as bullying. However, single episodes of nastiness or physical aggression are not acceptable behaviours at our school and may

have serious consequences for students engaging in this behaviour. Newport Gardens Primary School will use its SWPBS Matrix to guide a response to single episodes of nastiness or physical aggression alongside Compass in recording incidences.

Harassment is language or actions that are demeaning, offensive or intimidating to a person. It can take many forms, including sexual harassment and disability harassment. Harassment of any kind will not be tolerated at Newport Gardens Primary School and may have serious consequences for students engaging in this behaviour. Newport Gardens Primary School will use its Student Wellbeing and Engagement Policy to guide a response to students demonstrating harassing behaviour, unless the behaviour also constitutes bullying, in which case the behaviour will be managed in accordance with this Bullying Prevention Policy.

BULLYING PREVENTION

School-wide Positive Behaviour Support Program assists Newport Gardens Primary School to improve social, emotional, behavioural and academic outcomes for children and young people.

Newport Gardens Primary School's implementation of SWPBS is implemented well, teachers and students have more time to focus on relationships and classroom instruction. Students and staff benefit from:

- increased respectful and positive behaviour
- increased time focused on instruction
- improved social-emotional wellbeing
- positive and respectful relationships among students and staff
- increased adoption of evidence-based instructional practices
- a predictable learning environment with improved perceptions of safety and increased attendance

SWPBS assists Newport Gardens Primary School to:

Establish a common philosophy and purpose: Staff and students use a common language to discuss behaviour. School philosophy emphasises the need to teach appropriate behaviour much like academic learning.

Establish Leadership and school-wide support: School leaders publicly endorse and support SWPBS. A team at the school leads implementation by creating, reviewing and monitoring an action plan. The work is done in collaboration by the whole staff with input from parents, students and the community.

Clearly define a set of expected behaviours: The school identifies 3-5 behavioural expectations that apply at all times. Clear, positively stated examples are identified and displayed in different school settings.

Establish procedures for teaching and practising expected behaviours: A school-wide plan is developed to ensure behavioural expectations are taught to all students by all staff.

Implement a continuum of procedures to encourage expected behaviours: School-wide systems are developed to acknowledge expected behaviour and promote commitment from all members of the school community.

Develop a continuum of procedures to discourage inappropriate behaviour: Schools clearly define problem behaviours and identify specific strategies and responses to minor and major behavioural infractions.

Use procedures for record-keeping, decision making and ongoing monitoring: Schools review data on repeated behaviour issues, the settings in which they occur, and the consequences most likely to be applied for inappropriate behaviours. They correlate these with other sources of data such as academic progress, and analyse this data to make necessary adjustments to school operations in an effort to reduce inappropriate behaviour.

Support staff to use effective classroom practices: Schools establish systems to support staff to adopt evidence-based instructional practices associated with reductions in inappropriate behaviour.

A thorough understanding of the alleged bullying will inform staff about how to most effectively implement an appropriate response to that behaviour.

Serious bullying, including serious cyberbullying, is a criminal offence and may be referred to Victoria Police. For more information, see: [Brodie's Law](#).

Responses to bullying behaviours

When Wellbeing Coordinator and Principal/Assistant Principal has sufficient information to understand the circumstances of the alleged bullying and the students involved, a number of strategies may be implemented to address the behaviour and support affected students in consultation with Wellbeing Coordinator and Principal/Assistant Principal, teachers, SSS, Department of Education and Training specialist staff etc.].

There are a number of factors that will be considered when determining the most appropriate response to the behaviour. When making a decision about how to respond to bullying behaviour, Newport Gardens Primary School will consider:

- the age and maturity of the students involved

- whether the student/s engaging in bullying behaviour have displayed similar behaviour before
- whether the bullying took place in a group or one-to-one context
- whether the students engaging in bullying behaviour demonstrates insight or remorse for their behaviour
- the alleged motive of the behaviour, including any element of provocation.

- Facilitate a restorative practice meeting with all or some of the students involved. The objective of restorative practice is to repair relationships that have been damaged by bringing about a sense of remorse and restorative action on the part of the person who has bullied someone and forgiveness by the person who has been bullied.
- Facilitate a mediation between some or all of the students involved to help to encourage students to take responsibility for their behaviour and explore underlying reasons for conflict

or grievance. Mediation is only suitable if all students are involved voluntarily and demonstrate a willingness to engage in the mediation process.

- Facilitate a process using the Support Group Method, involving the target student(s), the students engaging in bullying behaviour and a group of students who are likely to be supportive of the target(s).
- Implement a Method of Shared Concern process with all students involved in the bullying.
- Facilitate a Student Support Group meeting and/or Behaviour Support Plan for affected students.
- Prepare a Safety Plan or Individual Management Plan restricting contact between target and students engaging in bullying behaviour.
- Provide discussion and/or mentoring for different social and emotional learning competencies of the students involved, including SWPBS - Check-in, Check-out, PATHS, Respectful Relationships or 'Zones of Regulation'.
- Monitor the behaviour of the students involved for an appropriate time and take follow up action if necessary.
- Implement year group targeted strategies to reinforce positive behaviours.
- Implement disciplinary consequences for the students engaging in bullying behaviour, which may include removal of privileges, detention, suspension and/or expulsion consistent with our Student Wellbeing and Engagement policy, the Ministerial Order on Suspensions and Expulsions and any other relevant Department policy.

Newport Gardens Primary School understands the importance of monitoring and following up on the progress of students who have been involved in or affected by bullying behaviour.
